

To Ask the Client (via Shiv)

Meta is now live on the client's own Business account and the system is deployed on Contabo , so credentials/hosting are handled. **We take care of all the technical wiring ourselves.** Below are only the real-world facts and choices that the **client** can answer. Plain language, grouped by topic.

1. WhatsApp number

- [] Should we use a **brand-new WhatsApp number**, or an **existing number the hotel already uses**? *(We have Developer access to the client's Meta account — we just need to know whether to set up a fresh number or connect one they already have.)* New / Existing
- [] Name guests see as the sender — "**J Residency**" or "**TrilIndia Hospitality**"? _____

2. Kalakars (the drivers who bring you guests)

We understand a Kalakar is an auto/cab driver who brings travellers to the hotel and earns a commission per guest. We want to track which driver brought which guest and highlight the top performers. Please confirm:

- [] The **list of Kalakar drivers** — name + phone number for each: _____
- [] Are they **auto drivers, cab/taxi drivers, or both**? _____
- [] **Commission per guest** — is it about **₹400–500 per check-in (cash)**, or different? **fixed ₹** or **%**? _____
- [] Roughly **how many guests a month** come through Kalakars? _____
- [] Today, **how do you know which driver brought a guest?** (driver gives a name/code? guest mentions it? written in a register?/ do they bring the guest to frontdesk?) _____

3. Airport pickup & cab fares

(Used in the pre-arrival messages — currently placeholders.)

- [] Do you **offer airport/station pickup** to guests? Y / N

- [] The cab fare we quote a guest — is it a **fixed fare**, or does it **vary by distance (per km)**? Fixed / Per-km
 - If **fixed** → the fare(s) per route (e.g. IGI Airport → hotel): _____
 - If **per-km** → the **per-km rate** (and any base fare): _____
- [] Approx **travel time from IGI Airport** to the hotel? (*placeholder today: 45–60 mins*) _____
- [] A **trusted driver/partner contact** for pickups (could be one of the Kalakars): _____

4. Check-in / check-out / breakfast / WiFi

- [] **Check-in time?** (*placeholder: 12:00 PM*) _____
- [] **Check-out time?** (*placeholder: 11:00 AM*) _____
- [] **Breakfast** — hours, **included in the rate or extra**, veg/non-veg? (*placeholder: 8:00–10:30 AM*) _____
- [] **WiFi name + password**, and is it OK that we only share it **after check-in?** _____
- [] **Early check-in / late check-out** — allowed? any charge? _____

5. Rates, upgrades & local recommendations

- [] **Confirm the 4 room tiers & base prices** — General / Delux / Executive / Luxury: _____
- [] **Confirm the number of rooms you have in each category**
- [] **Room upgrade offer** — which upgrade (e.g. Delux → Executive), the **extra price**, and the **real perks**. (*Our draft message says "free pool and laundry" — J Residency has **no pool**, so please give the actual perks.*) _____
- [] **Local recommendations** to suggest guests — a few real nearby **restaurants, shopping spots, and attractions:** _____
- [] **Google Review link** — from the hotel's Google Business Profile (we

send it after checkout): _____

6. Front-desk & escalation contacts

- [] **Manager WhatsApp number(s)** to receive complaint/escalation alerts: _____
- [] **Front-desk phone number** guests can call (*confirm if it's +91 98994 02024 or another*): _____
- [] **In-room landline** — which digit reaches the front desk (0? 9?)? _____

7. Other services & policies (so the bot answers instead of escalating)

- [] **Dining / room-service hours + menu / how guests order**: _____
- [] **Laundry** — available? turnaround? price? _____
- [] **Extra-bed / child-bed charge + child policy** (free up to what age): _____
- [] **Parking** (free/paid/capacity) + **pet policy**: _____
- [] **Cancellation / refund policy** (exact wording for guests): _____

8. Guest register → Contacts (the OCR feature)

- [] OK for us to **store guest details** (name, phone, nationality, address) read from the register, for follow-ups / offers? Y / N
- [] Please **share the old register books** so we can digitize past guests too (*we'll do both old + new*): _____

9. Business decisions (a quick call)

- [] **OTA channel manager** — which one should cover **Booking.com + MMT + Goibibo + Agoda**? (*we've shortlisted options; note MMT/Goibibo are India-specific, so coverage matters*) _____
- [] **Razorpay** for website payments — needed now, or later? If now: account status + live keys. Needed now / Later

- [] **Other 4 hotels** (Satwah 29, Ashram View, Preet Place, Samrat Residency) — **which to onboard first**, and per-property data (rates, WiFi, breakfast, photos, Kalakar list). _____

Prepared by Gage Labs for J Residency Hotel.
